KEEP OUT OF REACH OF CHILDREN. CAUTION.

16 fl oz (473 mL)

FortaGrow Plant Disease Control is a high-strength plant-based fungicide designed to prevent and control powdery mildew, botrytis, anthracnose, and more. Made with natural thyme oil, FortaGrow Plant Disease Control provides an effective and refreshing solution for managing foliar plant bacteria and fungi.

Directions for Use: *Shake well before each use. Spray directly onto leaves and stems, covering both top and underside until lightly wet (but not dripping). Apply in early morning or evening to avoid intense sun and heat. Repeat every 5–7 days or as needed. While the formula is designed to be gentle on plants, test on a small area before widespread application.*

Storage & Disposal: *Store at room temperature. Do not expose to extreme heat or freezing temperatures. Do not reuse empty container. To dispose, triple rinse the container and recycle where possible.*

Precautionary Statements: *This product contains concentrated essential oils, which may cause sensitivity in some individuals. Avoid direct inhalation. Keep children and pets away from treated areas until dry. Do not apply to skin. Do not ingest.*

FIRST AID:

Eye contact: *Rinse eyes with water for at least 15 minutes.*

If on skin: *Wash with soap and water.*

Ingestion: *Do not induce vomiting. Contact Poison Control at 1-800-222-1222.*
